

<b>Sprint 4</b>									
Timeline			So this sprint is the last one and there is a big rush. During this sprint we also had to focus our energy on the final exam and the presentation. Pascal Ypperciel, the repository manager has many tasks, mainly for the different tests, pre-commit hooks, repo organization etc. The rest of the developers were given a small amount of tasks and some were ask to the bugs they could find.						
Objective			Clean up everything, make sure everything we started is over.
